Therapy helps when your horse:

- √ Has had a recent injury or surgery
- √ Has lameness that comes and goes
- √ Has scar tissue and/or calcification from an old injury
- √ Is no longer a willing partner
- √ Has trouble picking up leads
- √ Has lost his "shine in the show ring"
- √ Hasn't responded to anything else!

Conditions that Benefit From Ultrasound/Laser

- Tendon and ligament injuries
- Wounds/Hematomas
- Infections/Inflammations
- Soft tissue and muscle injuries
- Scar tissue, proud flesh
- Back conditions, Spondylosis
- Joint problems
